National Survey of Likely Voters

April 2008

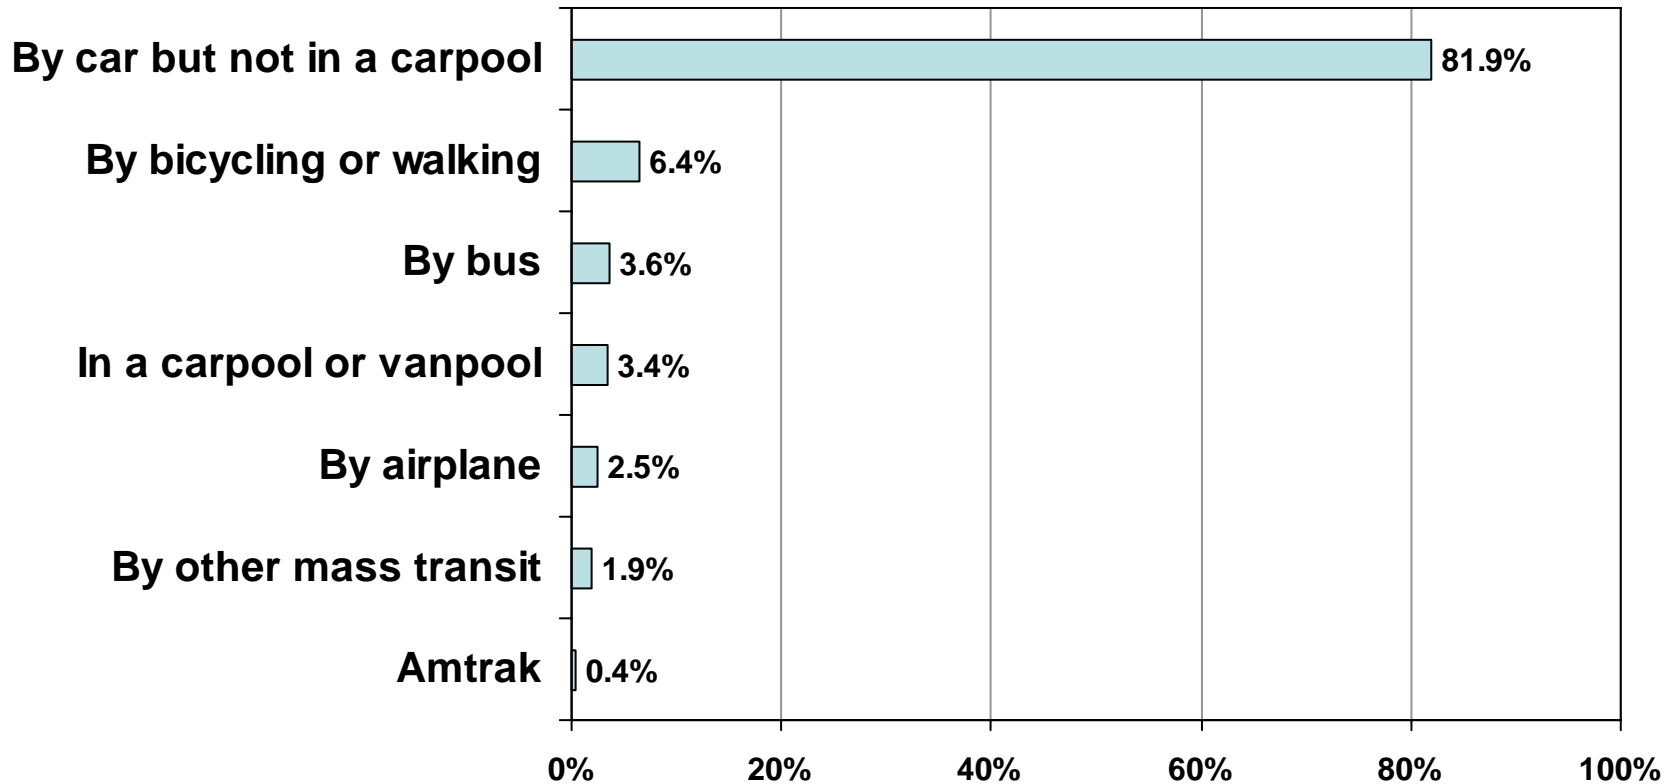

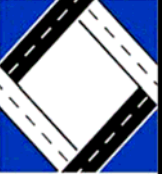

Methodology

- **Universe:** Likely Voters
- **Sample Size:** 1,000
- **Error Margin:** $\pm 3.1\%$
- **Method:** On-Line (email-driven web-based survey to random sample of Survey Sampling Inc. opt-in national panel)
- **Field Dates:** April 4-6, 2008

Voters Spend Most Time Travelling By Car

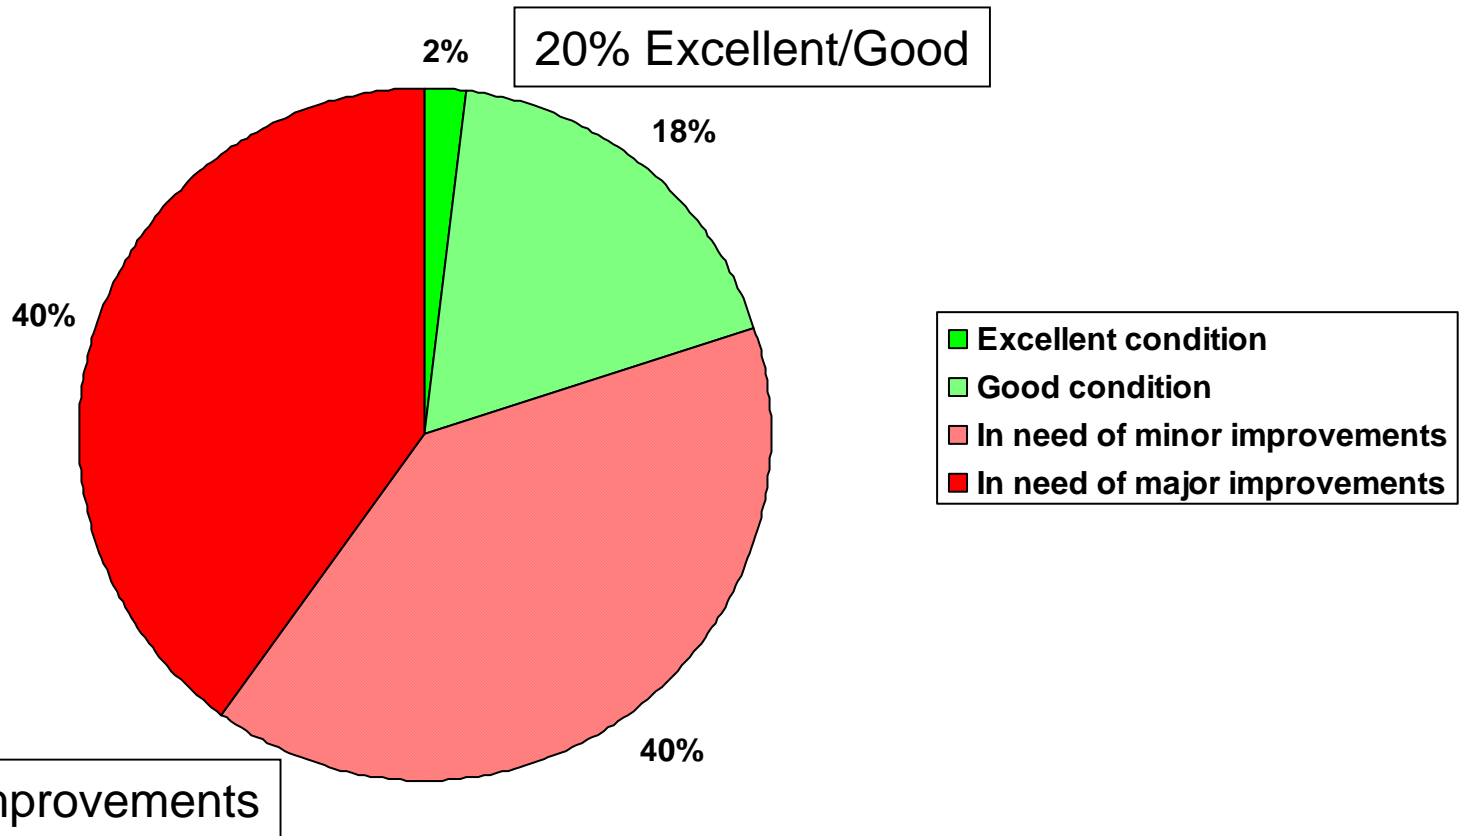

Q: For each of the following forms of transportation, please indicate what percentage of the time you use that form of transportation during the course of a year. Please consider ALL of the places you go, including work, school, shopping, social visits, vacation, etc. All of the percentages entered should add up to 100%

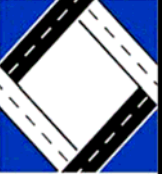

Safety Improvements Needed

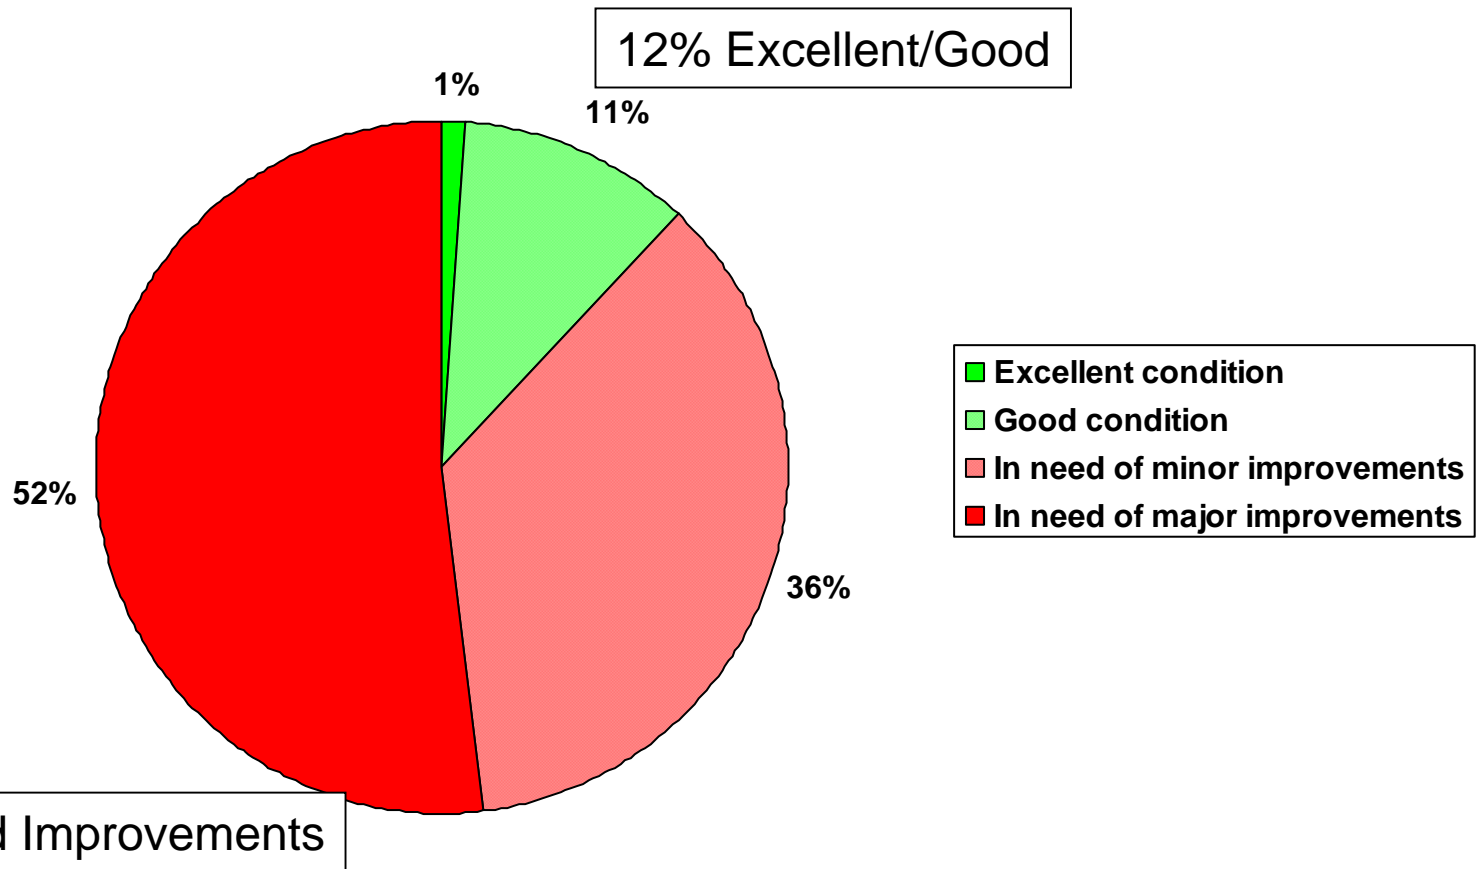

Q: In terms of **safety**, please rate your opinion of the condition of the nation's major highways and bridges

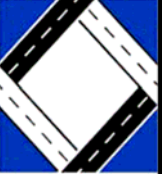

Major Congestion Relief Needed

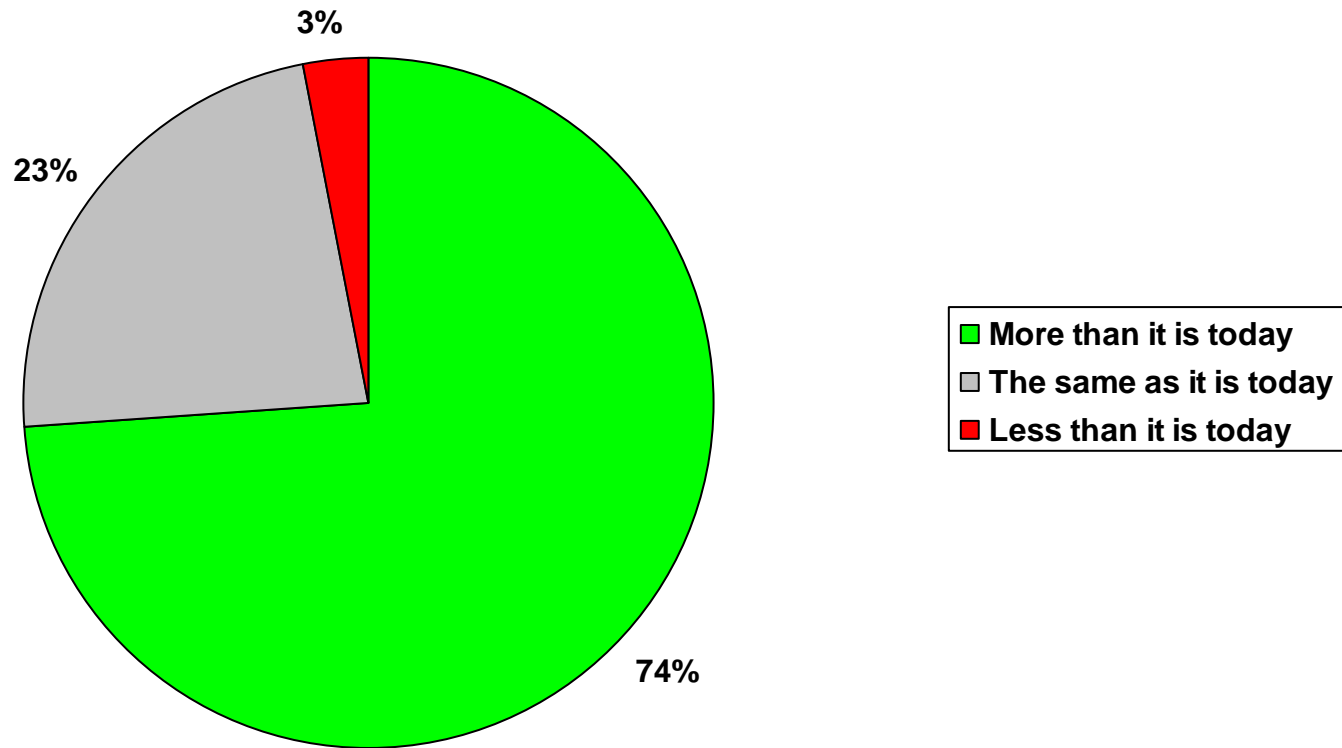

Q: In terms of congestion, please rate your opinion of the condition of the nation's major highways and bridges

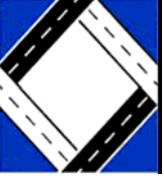

Invest More In Highways & Bridges

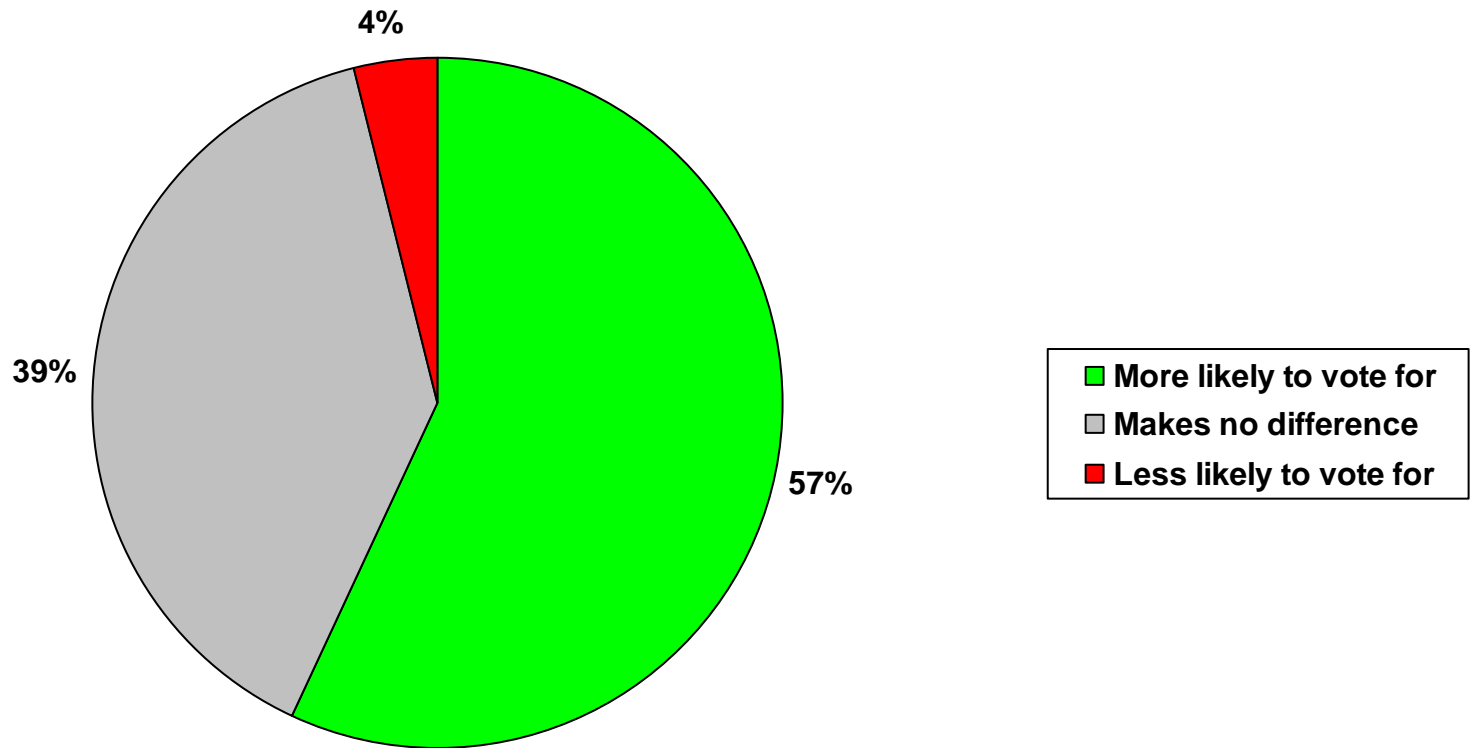

Q: In the next year, should the federal government's investment in highway and bridge improvements be...

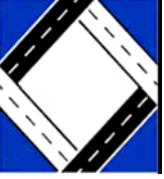

Candidates Benefit From Talking About Congestion Relief

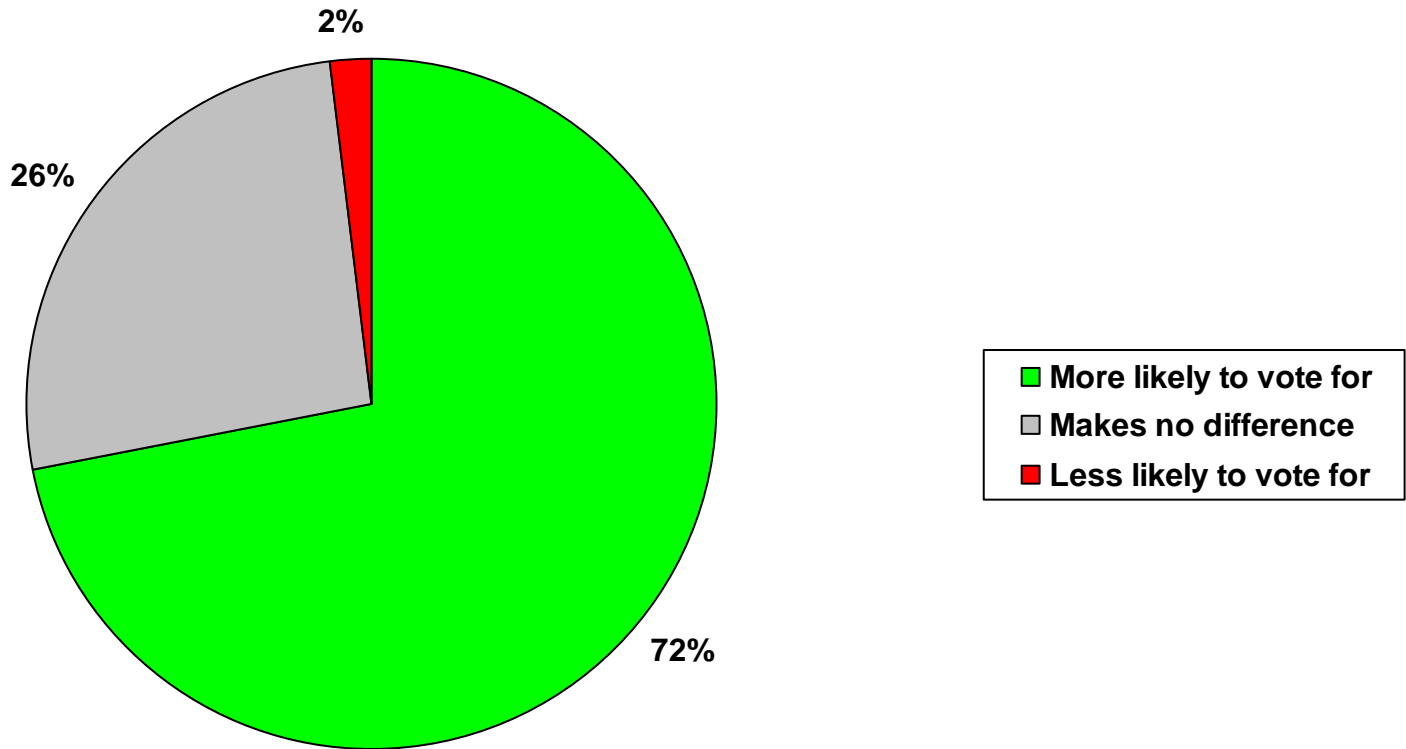

Q: Would you be more likely or less likely to vote for a candidate for Congress who talks about relieving congestion on our nation's highways?

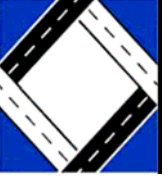

Candidates Significantly Benefit From Talking About Safety

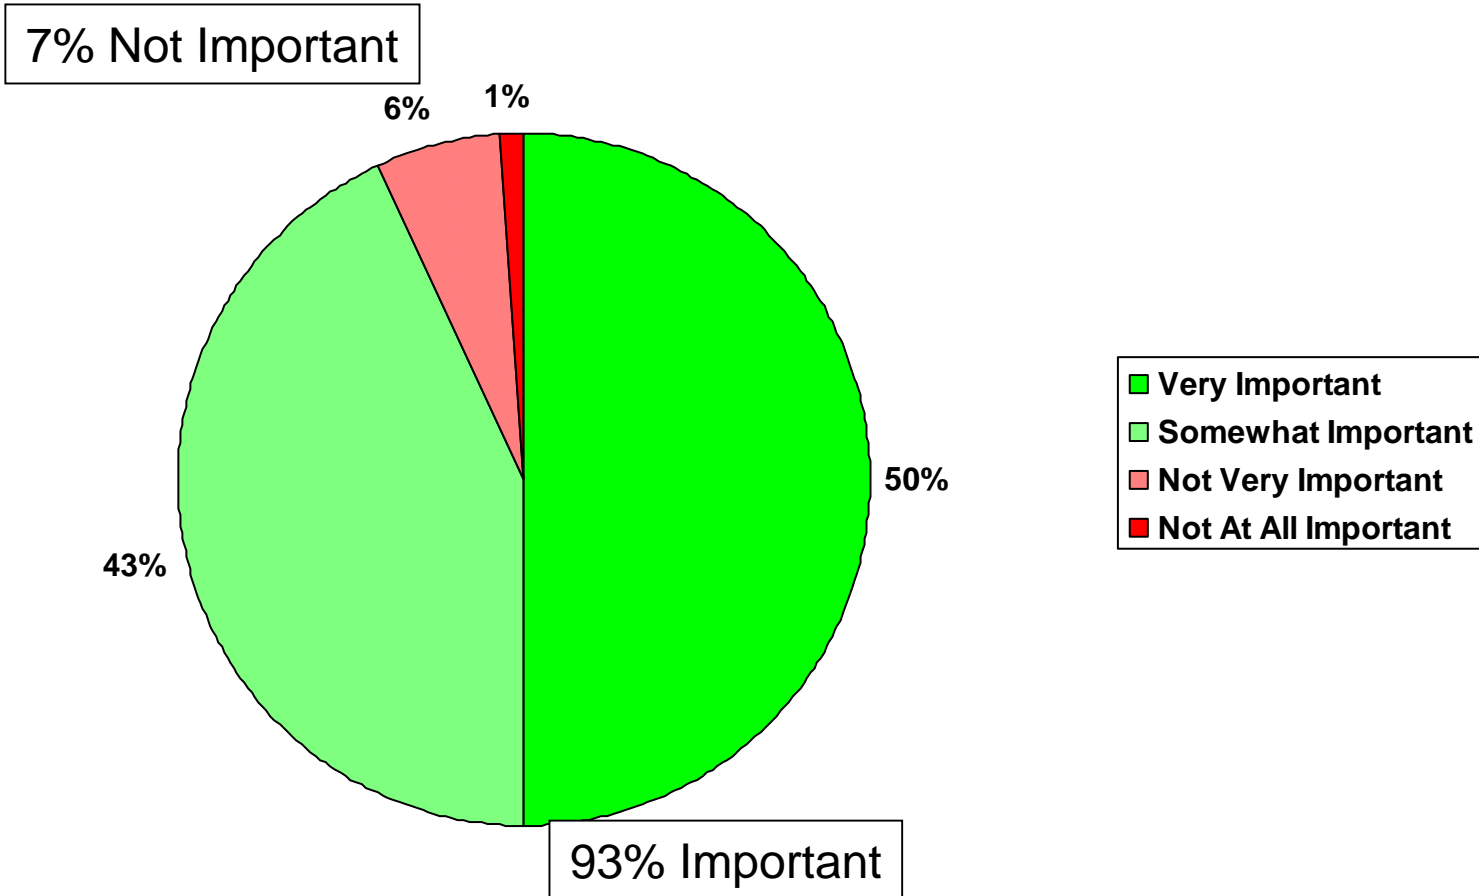

Q: Would you be more likely or less likely to vote for a candidate for Congress who talks about improving the safety of our nation's highways and bridges?

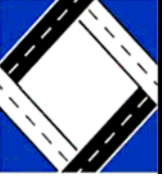

Important To Keep Fuel Tax Dedicated To Highways & Bridges

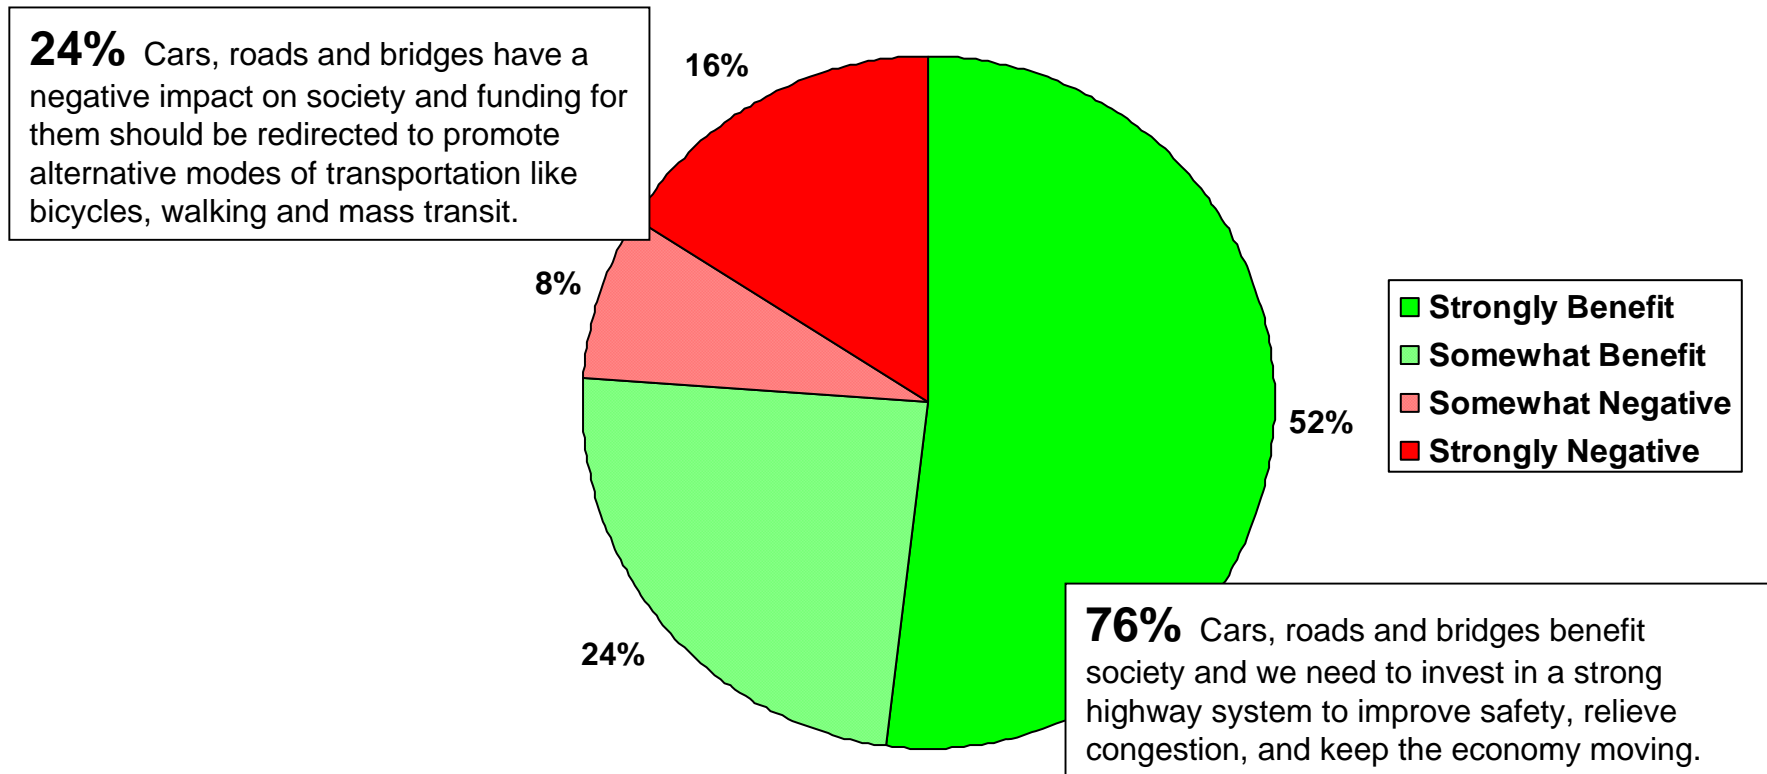

Q: How important is it to you that your elected officials support the position that fuel taxes and other fees collected from highway users should be dedicated only for highway and bridge improvements?

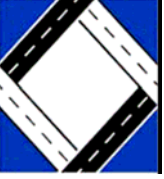

Strong Majority See Cars, Roads & Bridges As Benefit To Society

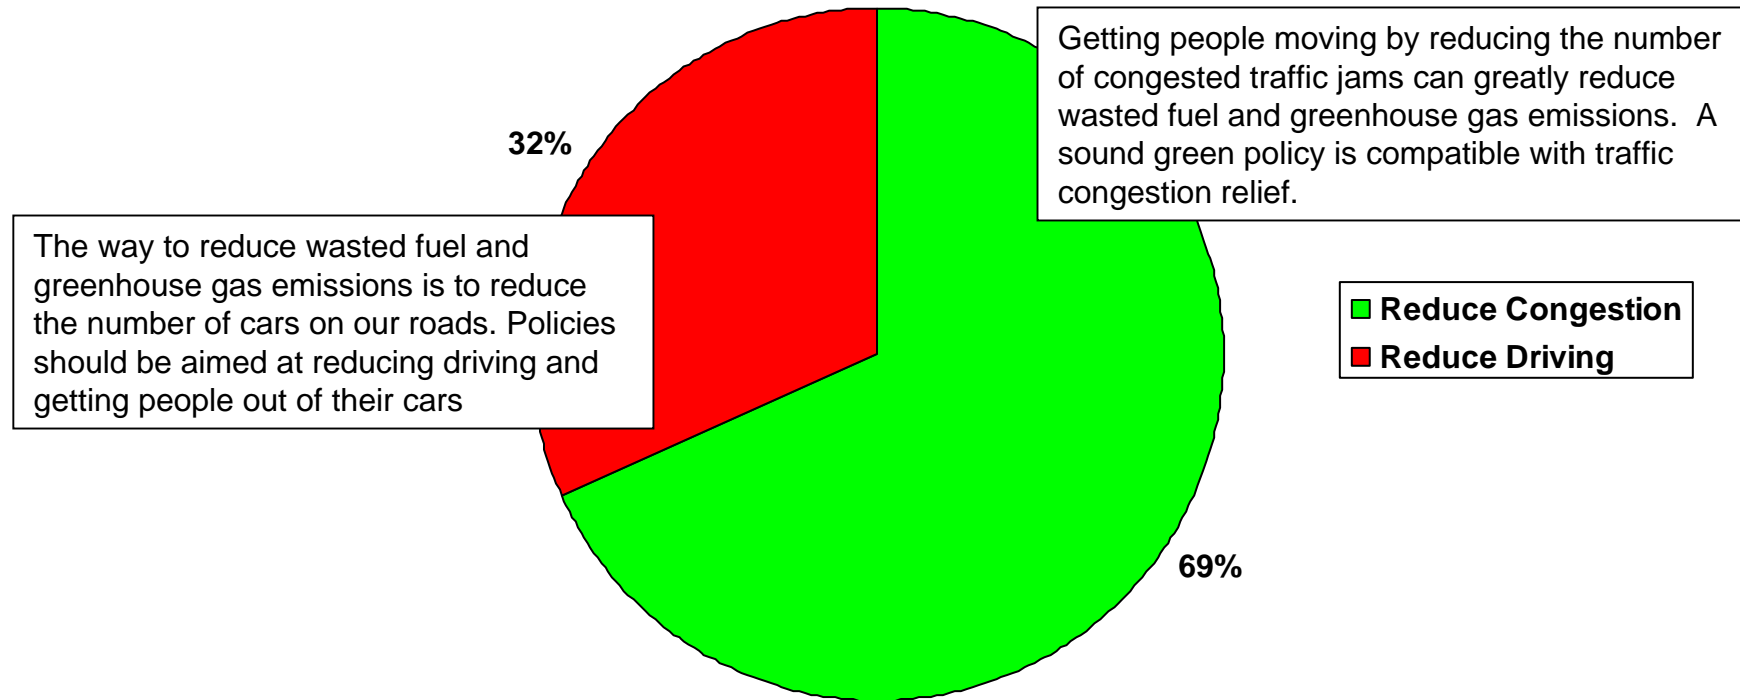

Q: Which of the following two views on transportation policy are closer to your own?

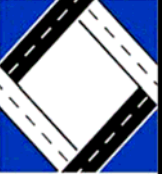

Reducing Congestion Better Green Policy Than Reducing Driving

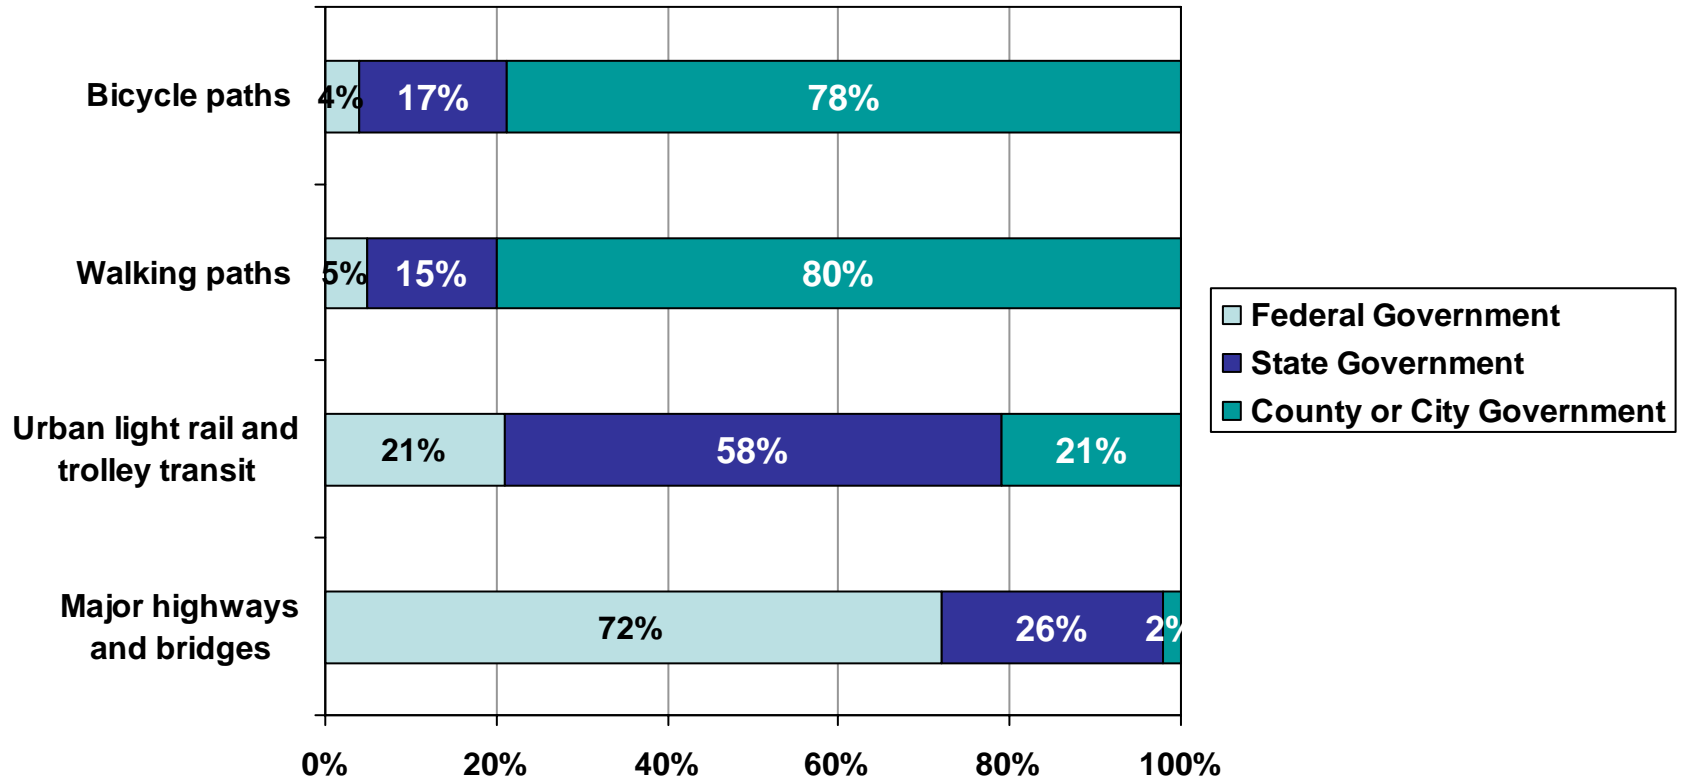

Q: Which of the following approaches to reducing green house gas emissions is closer to your own view?

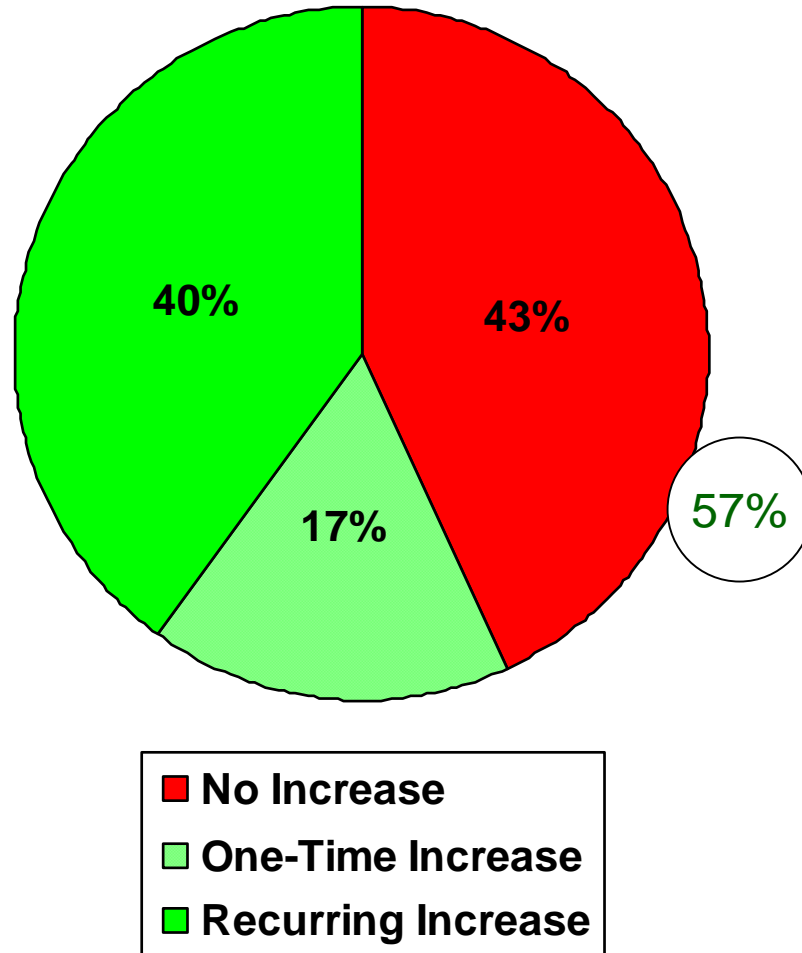

Federal Government Should Lead On Funding Major Highways & Bridges

Q: For each of the following types of transportation, please indicate which level of government you think should take the leadership role in funding, the federal government, state, or local governments

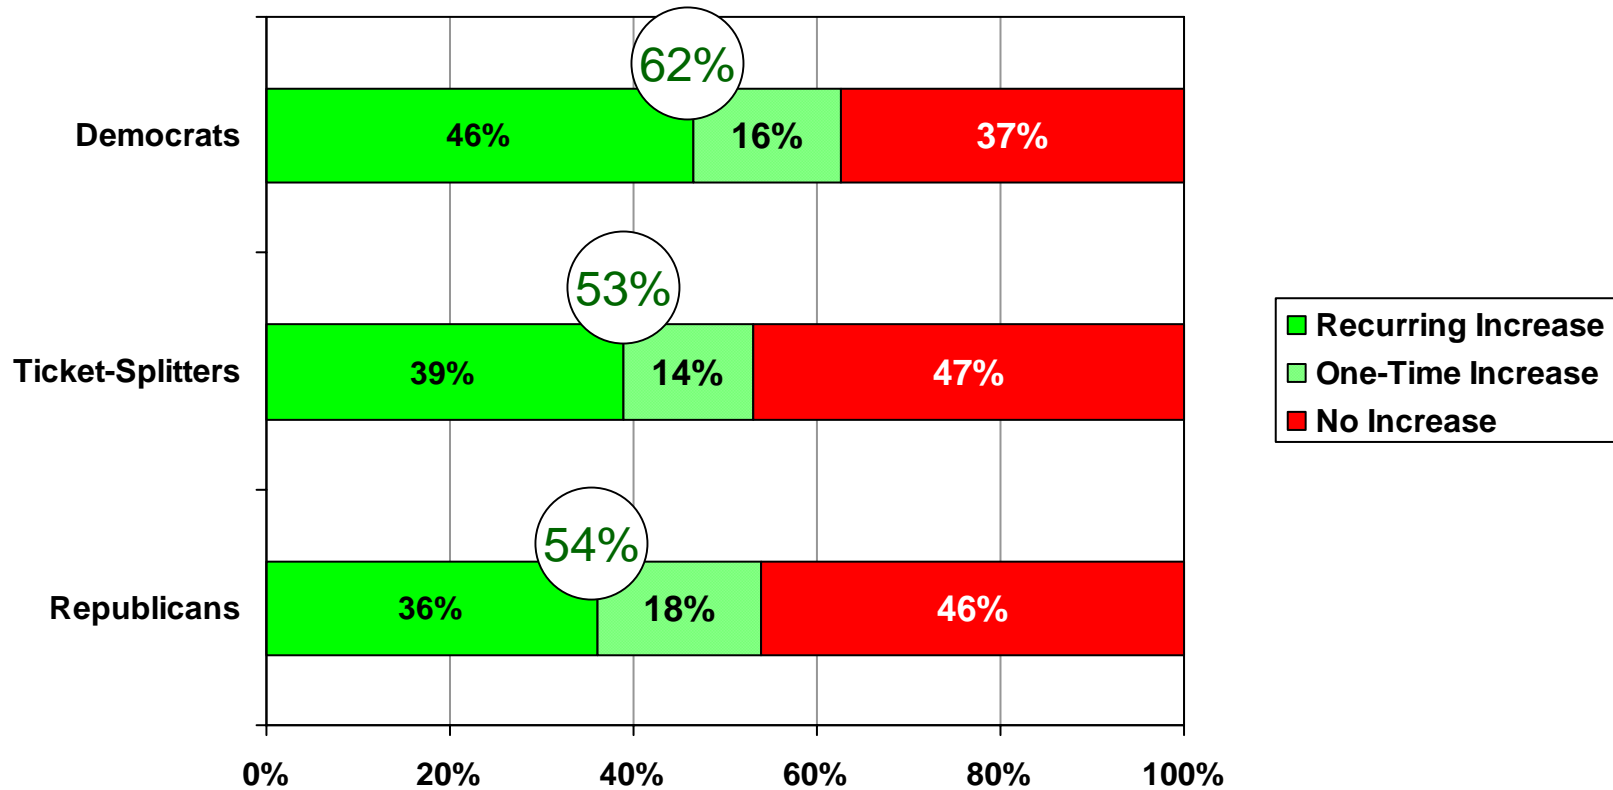

Majority Support Some Increase In Fuel Tax

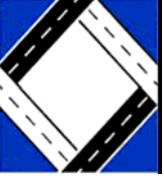

Q: Highway users pay for roads and bridges by paying federal user fees on gasoline and diesel. The current federal fuel tax hasn't changed in 15 years and is 18.4 cents per gallon. Some have suggested an increase over the next five years to pay for needed transportation projects. Which of the following would you support?

Fuel Tax Increase Opinion By Vote Behavior

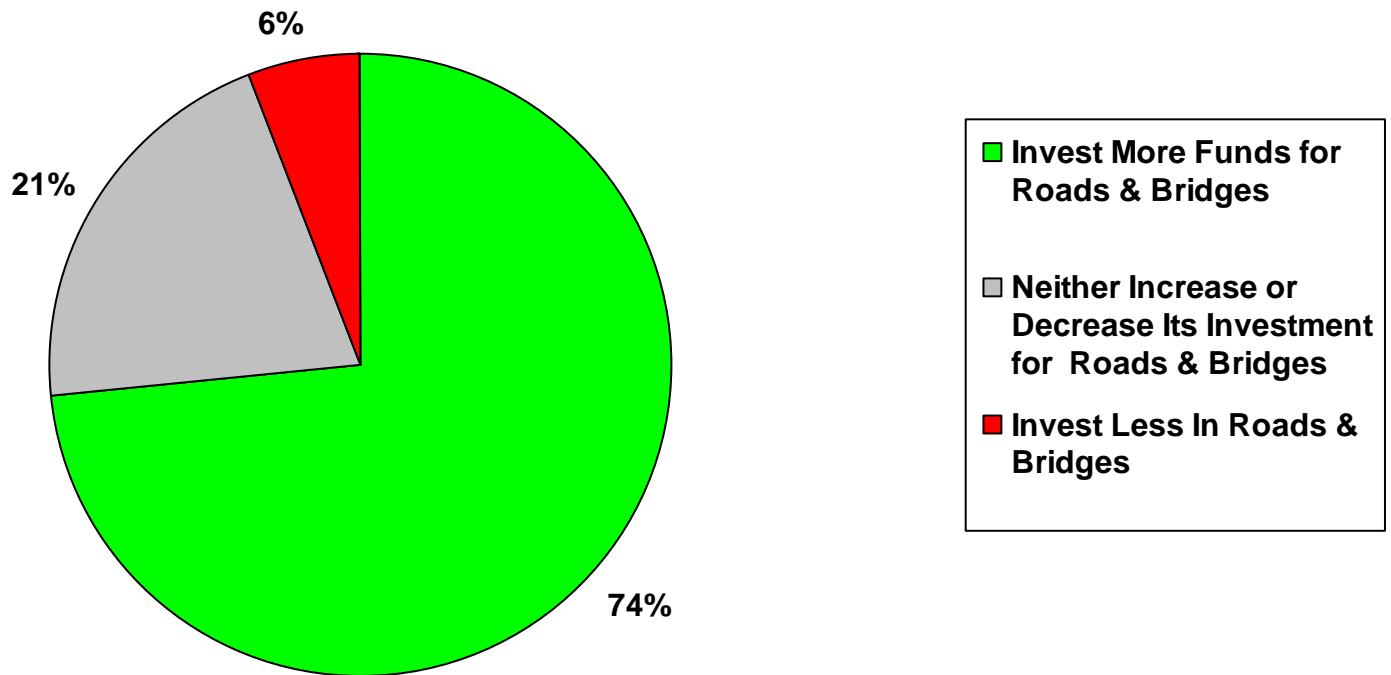

Messages: Trust Fund Bankruptcy

Q: Please rate the impact of the information below on your support for increased investment by the federal government on highways and bridges...

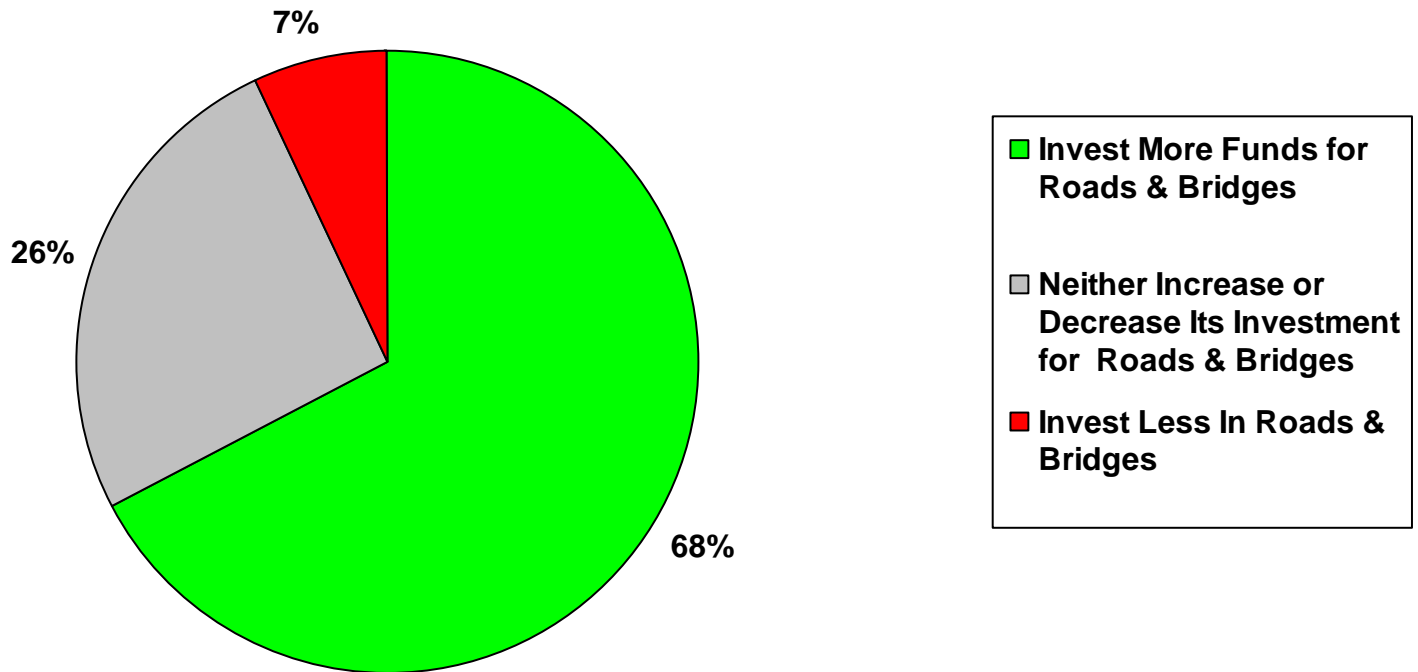

For the first time in its history, the Federal Highway Trust Fund, which is funded by the fuel tax, will be bankrupt in 2009. Without action from Congress, highway funds will be dramatically cut.

Messages: Tax Has Lower Buying Power

Q: Please rate the impact of the information below on your support for increased investment by the federal government on highways and bridges...

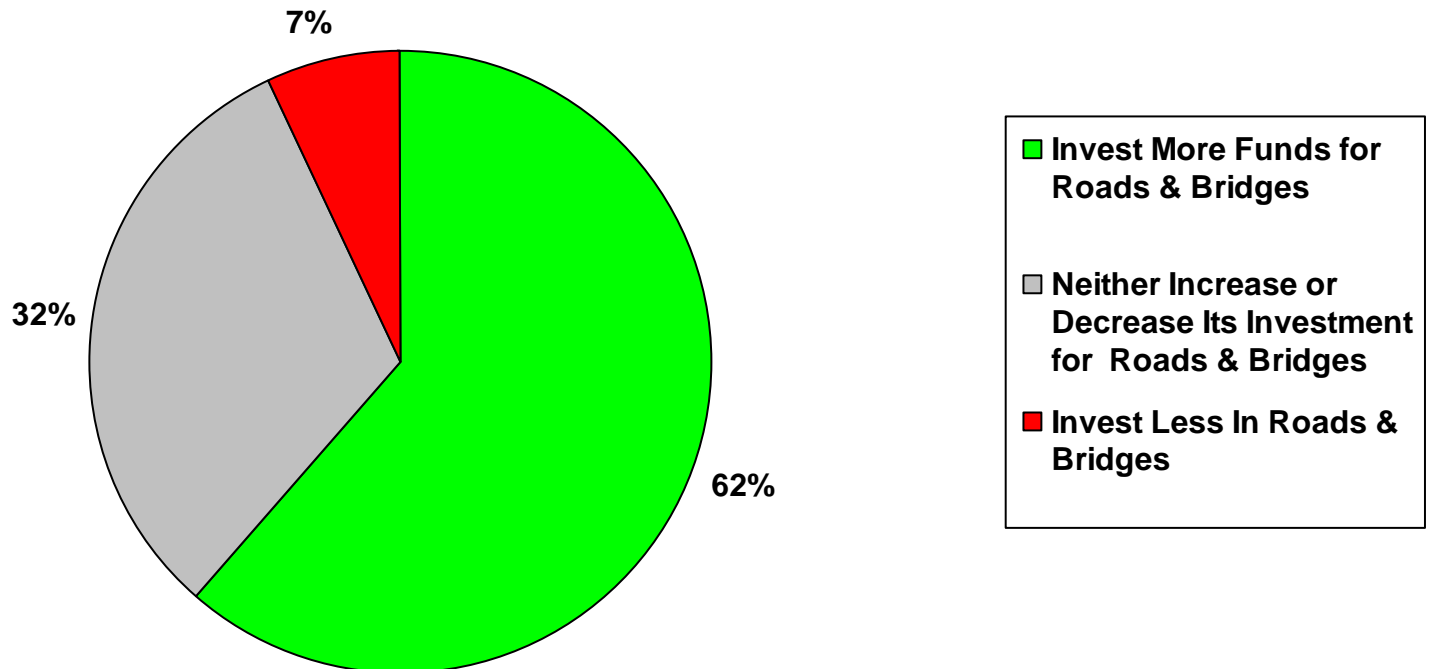

Due to inflation and higher costs for construction materials, today's tax on a gallon of gasoline can only pay for half of the improvements it did 15 years ago. This means every year the government has less to spend keeping our roads and bridges up to date.

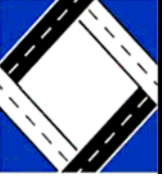

Messages: U.S. Losing Competitiveness

Q: Please rate the impact of the information below on your support for increased investment by the federal government on highways and bridges...

China is building an economy to compete with the U.S. By 2020, China will have a bigger Interstate Highway System than the U.S. to reduce freight delays and move people. China spends 2.5% of its GDP on highways but the U.S. only spends 0.65% of our GDP. If the U.S. does not invest more in its roads and bridges, its international competitiveness will only suffer more.

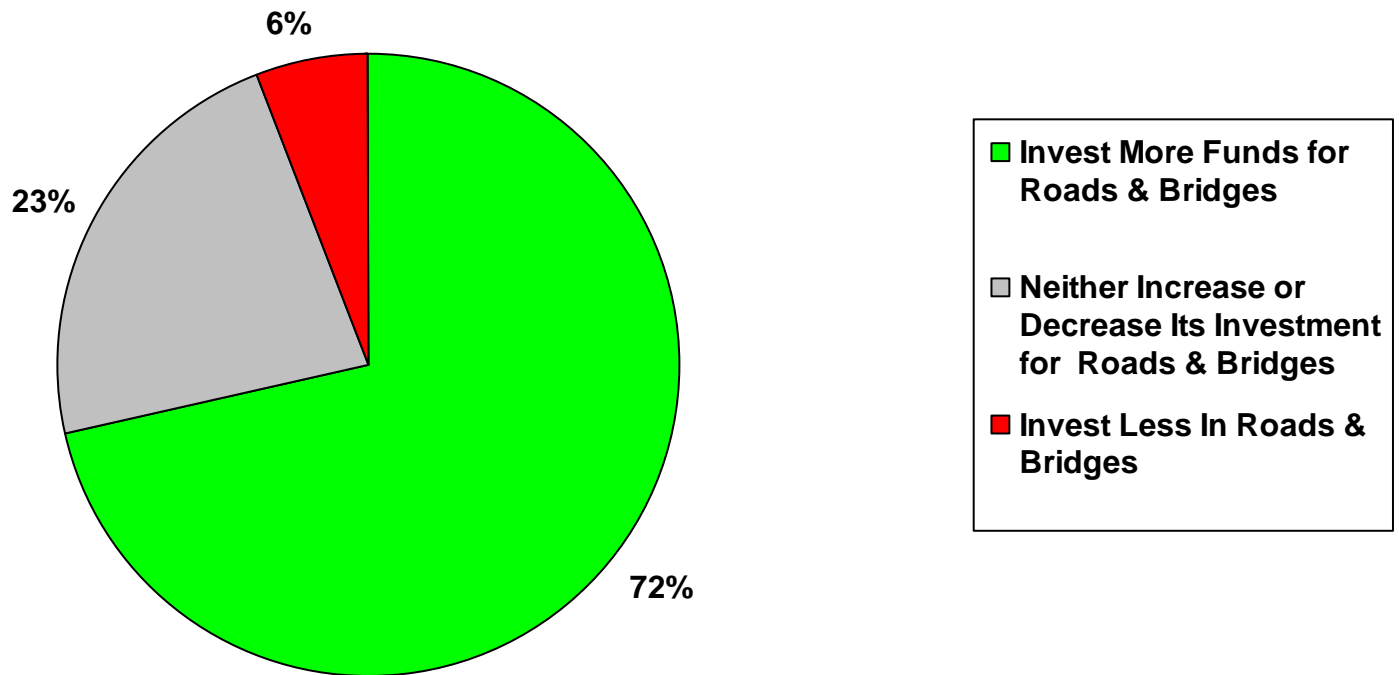

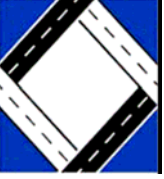

Messages: Improvements Can Save Lives

Q: Please rate the impact of the information below on your support for increased investment by the federal government on highways and bridges...

Of the nearly 43,000 lives lost annually on U.S. highways, about 14,000 can be linked to substandard road conditions, obsolete designs or unprotected roadside hazards. Investing more in roads and bridges will save lives.

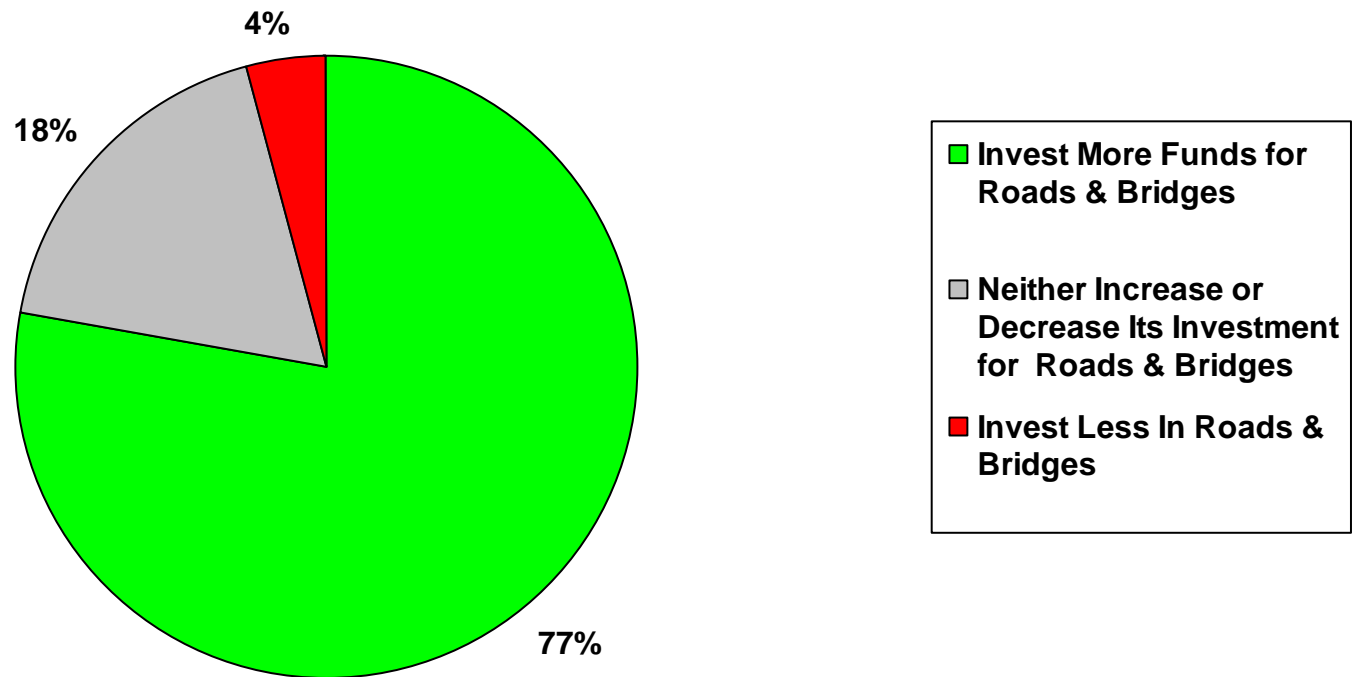

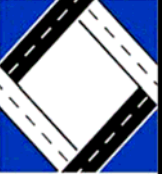

Messages: Unsafe Bridges

Q: Please rate the impact of the information below on your support for increased investment by the federal government on highways and bridges...

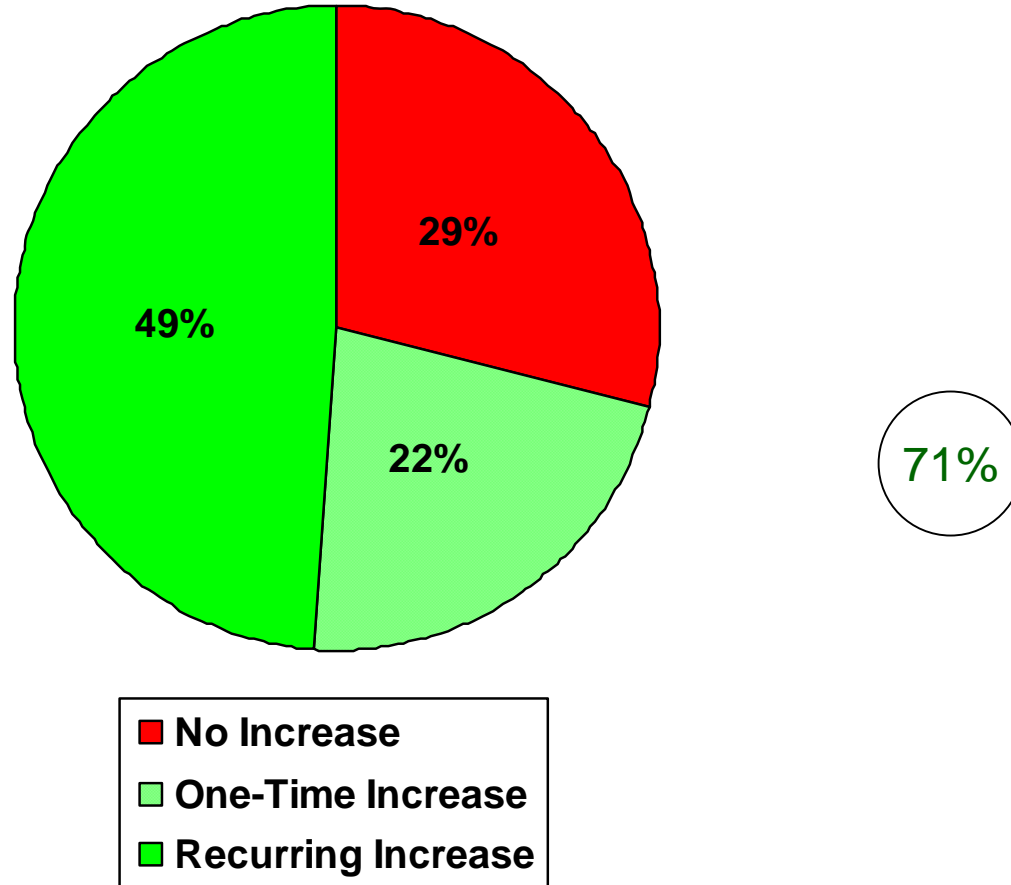

21% of the nation's major highway bridges have been rated by the Federal Highway Administration as either structurally deficient or functionally obsolete. We cannot wait for another bridge collapse to invest in bridge improvements.

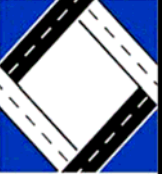

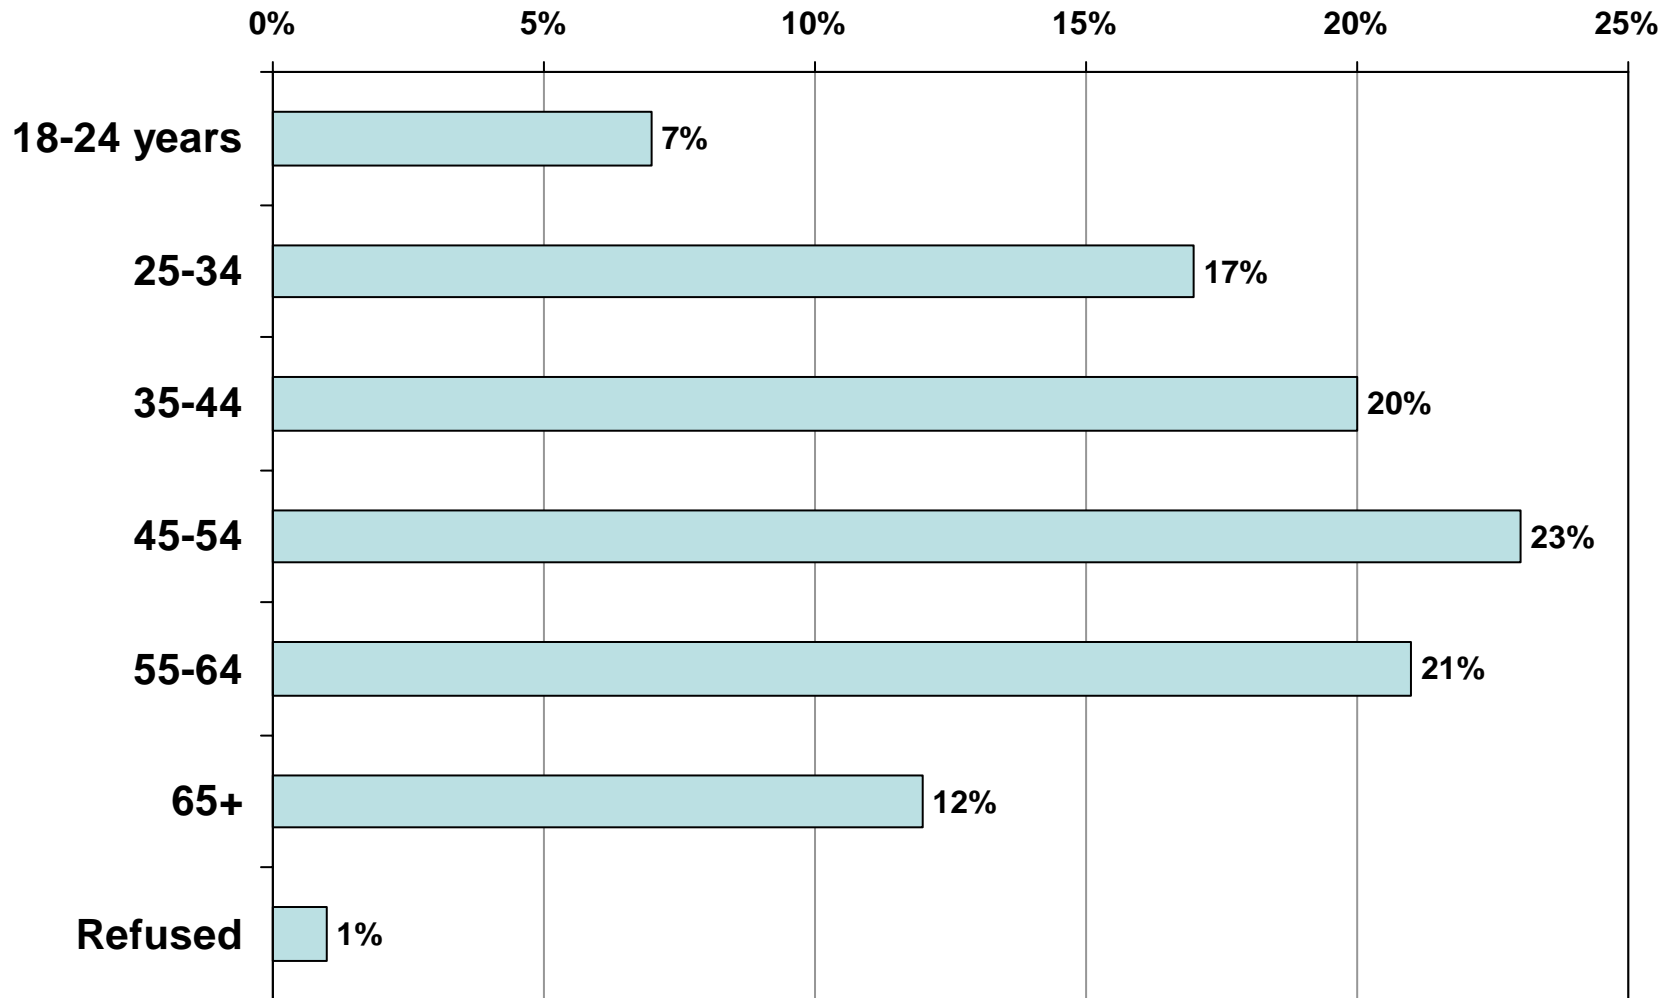

Support For Fuel Tax Increase Grows From 57% to 71% After Messages

Q: As mentioned earlier, the current federal fuel tax, set fifteen years ago, is 18.4 cents per gallon. After reading more information about the state our nation's roads, which of the following would you support??
